

# A leading global supplier to the mining and aggregate industries

*Manufacturer and supplier of premium crusher parts*

CMS Cepcor™ exports products globally to over 100 countries.

# Replacement crusher parts engineered and manufactured in the United Kingdom

CMS Cepcor™ manufacturing facilities in the UK include high capacity CNC, milling, turning, boring, slotting, grinding and drilling alongside automatic welding, co-ordinate measuring and material testing.

# Premium crusher liners

*High performance manganese and alloy steel wear parts*

## Proven performance

CMS Cepcor™ crusher chamber liners are proven in mining and aggregate production to achieve and often exceed the performance benchmark of the equivalent OEM crusher liners.

CMS Cepcor™ offers multiple alloy options including our premium range M14, M18 and M21 manganese steel materials.

# Korrobond crusher backing

*Leading epoxy crusher backing compound*

## Custom gyratory liners

CMS Cepcor™ custom gyratory liners can optimise your crushing chambers performance.

CMS Cepcor™ are authorised UK and export distributors of Korrobond crusher backing compound and release agent products.

# Replacement crusher parts

*The genuine alternative to your original equipment manufacturer*

CMS Cepcor™ is widely accepted as the genuine alternative to the original equipment manufacturer (OEM) for replacement crusher spare parts.

## Commitment to quality

CMS Cepcor™ recognises that modern crushers demand replacement parts manufactured to exacting material grades and dimensional tolerance. CMS Cepcor™ parts are designed, manufactured and quality assured to be compatible with original parts specifications.
