PN 20 "y" type

Example: **G 501** Cast iron gate valve
ansi CL 125 flanged

Example: **BR 520** Bronze gate valve PN 20
Non-Rising stem
Conforms to BS 5154

Company Overview

Valve Division

European Casting Industry ECI is dedicated to manufacturing the best quality of wide range valves. Our goal is to provide first class quality and standards to our clients. ECI valves have a wide range of use in the heating, ventilating, and air-conditioning systems, while also being applicable in the oil and gas fields. Each of our products has been systematically tested and monitored to ensure that the standards of quality are being met.

ECI manufactures both Bronze and Cast Iron Valves. They are both manufactured in two types of standards. One being the American "MSS-SP" standard the other being the British "BS-EN" standard.

Black Seamless Pipe Division

European Casting Industry has collaborated with an international partner in the black seamless pipe sector, that it will provide first class quality standard of pipes to our clients. ECI ensures that the pipes have been systematically tested and monitored to ensure that the standards of quality are being met.

Export Division

Thanks to our large experience we obtained a lot of success by exporting our products to our clients in the Middle East. Furthermore, ECI acts as a consultant or advisor to its distributors in the Middle East region. ECI is able to distribute it's product range anywhere around the world.
