Installed stainless steel railings and elevator cladding, providing durability and sleek design elements.

ROLLER SHUTTER BY TEKNOROL

- Our profiles are Double walled for superior thermal insulation and sound reduction
- Durable materials – made from coated steel or aluminium profiles
- Wind resistance up to Class 4 for enhanced performance
- Air and water tightness for reliable protection
- Moisture control to prevent condensation and maintain durability
- Drive options from renowned brand: "Tornado" from Germany offering precision engineering, safety, and long-lasting durability

ROLLER GRILLE SHUTTER

- TEKNOROL Roller Grilles - a blend of durability, security, and style
- Our materials are available in aluminium, galvanized steel, and stainless steel for superior protection and performance
- Designed to provide excellent security while maintaining airflow and visibility
- Side Guides: Smooth and secure operation, ensuring stability during movement
- Bottom Bar: Reinforces the curtain's lower edge for added strength and prevents deformation over time

- EXCELLENT VENTILATION
- MAXIMUM SECURITY
- OPTIMAL TRANSPARENCY

TR-G diamond-shaped roller grille at the entrance of a mall

FIRE RATED ROLLER SHUTTER

Our TEKNOROL Fire-Rated Roller Shutter delivers durability, security, and style, ensuring superior protection and functionality.

- Fire Protection

Up to 240 minutes fire rating
Compliant with BS 476: Part 22: 1987 standards

- Dimensions

Maximum width: 12,000 mm
Maximum height: 8,000 mm

- Long-lasting performance in demanding environments

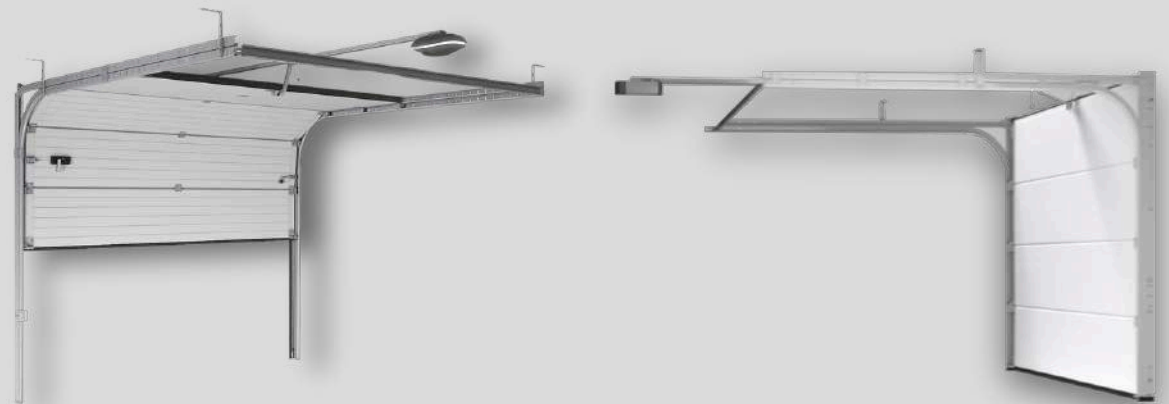

SECTIONAL DOOR

- Our TEKNOROL Sectional Door combines durability with refined design
- Double-walled construction for enhanced thermal insulation and sound reduction
- Our materials crafted from coated steel and aluminium for long-lasting strength
- Versatile application – ideal for both residential and commercial settings

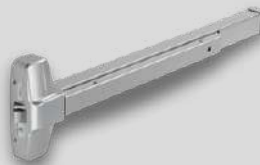

- DOUBLE WALLED, 40MM THICK
- INSULATING FOAM
- HIGH QUALITY STEEL AND ALUMINIUM SLATS
- SLEEK DESIGN

METAL FIRE RATED DOOR

FLUSH DOOR	VISION PANEL DOOR	LOUVER DOOR	FULL GLAZED DOOR
			
A robust, fire-resistant door compliant with BS 476: Part 20/22: 1987 and UL standards, offering fire ratings from 30 to 240 minutes. Featuring a smooth finish, it is perfect for secure and stylish environments.	Integrating fire resistance from 30 to 120 minutes in accordance with BS 476: Part 20/22: 1987 standards, this door enhances safety while providing clear visibility in secure environments.	Designed for airflow and durability, our metal louver doors provide ventilation and security, ideal for mechanical rooms and utility spaces.	Kuwait's only full glazed door with fire ratings from 30 to 120 minutes, compliant with BS 476: Part 20/22: 1987 standards. It seamlessly combines transparency and safety in a sleek, modern design.
